Cargo Insurance

ARE YOU COVERED?

The smart solution is to secure Shipper's Interest Cargo Insurance.

Shipments in transit are subjected to numerous perils: goods may be **damaged** in a collision, **stolen** or just **mishandled**.

If your products arrive damaged, you can't sell them. You also can't rely on the carrier, as they have limited liability and are provided legal defenses which absolve them of responsibility entirely. **If the goods were insured, the insurer would pay covered claims without the need to prove fault.**
