Consulting Services

TDS, Inc, has the technical expertise to tackle your most complex trade issues. We have partnered with leading trade professionals in the field to further guide you through complex customs events. We will support you with immediate solutions and long term remedies to ensure compliance.

We offer technical expertise in the following areas

Compliance programs - Assessments and improvement plans, process and internal control design, valuation, voluntary disclosures and appeals, and post-entry audits.

Export controls - Jurisdiction determination and export licensing assistance.

Classification services - Determine the correct tariff classification for new products or reassess existing ones for import classification HTS/HS, Schedule B and/or Export Control Classification.

International trade agreements - Rules of origin and marketing, origin determination, origin verification, supplier management programs.

Mexican Customs Compliance Services

There are many reasons for bringing customized training in to your company. With staff changes, some companies find a knowledgeable resource is gone and they want to develop new or junior people into technical experts. Regular training may be a company policy intended to help employees keep pace with regulatory changes and understand new customs initiatives. Including:

- . IMMEX Compliance
- . Training programs for Import / export personnel
- . Mexican Import & Tax Reform
- . In-house IMMEX control
- . Maquila Permits
